JULY - AUG 2026

Bringing You the Latest News, Winners & FUN!

Letter from the Founders *Andy & Judy Amada*

Summertime...and the living is HOT. No surprise there. So we wait for some thunderstorm action and hope the action doesn't shut off the A/C! A bit of a double edged sword there. But, hey, you can just keep your mind off of things by pooling with PowerPick.

Summertime is the best time to "Jump into a Pool"...pun intended. But seriously, folks, we've all seen high and low numbers for jackpots, but any and all jackpot amounts are worth winning. And you have the advantage because you know how to make the most of your lottery dollars.

We are constantly amazed at the cost of so many everyday items. How is it even possible that you can get into so many lottery tickets for so little? We've got the method. Now it's just a matter of lining up those numbers! Let's do it!

In case you haven't noticed, The Pick game has made some changes. So the cost of the ticket has gone up to \$2 instead of \$1, and the previous prize amounts are mostly cut in half. HOWEVER, each ticket has its own multiplier. So any wins you have are multiplied by 2,3,4 or 5 times. Hmm, interesting. And get this...they have changed the number of numbers to choose from 44 to 40. That lowers the overall odds of winning anything from 1 out of 39 to 1 out of 30, nearly 25% better. The odds of hitting the jackpot will be 1 in 3.8 million instead of 1 in 7.1 million. That's nearly twice as good!

If you are an automatic renewal player, your price remains the same, but number of The Pick tickets is reduced by half. If you want to bump up the number of Pick tickets on your monthly selection, just reach out and we can make that happen for you. The increase in price should be minimal.

Now if you are an online player only, you can read all about the changes to the game and see the price of Pick pools. If you don't play The Pick at all...now might be a very good time to dip your toe in the water. We can say that our results have gotten better based on these new rules. And we are having FUN seeing all the action!

Don't forget about joining in on one of our weekly scratcher pools. These are small groups of 10 people. Scratcher tickets have better odds than the online games, so it's only natural we should pool with these tickets too. We just had a \$5,000 winner with one group, so everyone received \$500! How fun is that!? We often hit a \$500 winner on these pools as well. So give it a try. Just another way we are making MORE winners!

We hope the rest of your summer shapes up to be a memorable one. All the best to each and every one of you!
