Bringing You the Latest News, Winners & FUN!

Letter from the Founders

Andy & Judy Amada

Have you heard who won the \$437 million Mega Millions Jackpot from January 1? It was a GROUP of 23 New Yorkers who have been pooling for a very long time. Isn't that great!

Of course we love hearing this kind of news. Here's to one of our groups being next! We've heard it numerous times, but it remains true... "You Can't Win if You Don't Play." So if you're playing...you've got a shot. Of course with a pool, you have many more chances, as the folks from NY can tell you.

And here's a fun fact: In the U.K., one quarter of the jackpot wins are won by syndicates, also known as POOLS. How about that! We know that as a member of PowerPick, you are well aware that pooling increasing your chances. It's just hard to resist the urge to repeat it for emphasis. So there you have it.

We have had a few inquiries about the Triple Twist game and whether we have thought about offering it. We like to think that we are on top of what's new and exciting so we did look into this game. The short answer is "No." Keep reading for the long answer. Here is our synopsis. ***The large prizes are much, much more difficult to win than the same prizes in Fantasy 5 or The Pick.*** For instance, the odds for winning the \$500 prize in TT are 12,408 to one. In Fantasy 5, that same prize is 4,163 to one...or 3 times easier.

Another example is the \$2,000 prize. In TT, the odds of winning that are 142,825 to one, versus 30,961 in The Pick, which is nearly 5 times easier than TT. AND, to top it off, the price of the TT ticket is \$2 instead of \$1. You could buy twice as many of The Pick and Fantasy 5 tickets and double the benefit just noted.

And what about the jackpot? The odds of hitting that in TT are 5,245,786 to 1, versus 7,059,052 to one in The Pick. HOWEVER, if you spent \$2 on The Pick, your odds of hitting the jackpot would then be about 3 ½ million to one, which is much better than 5.2 million to one for the same dollars spent.

We will be adding more options to our EZPooling website soon. Already you can enter the weekly contests...for FREE. You may choose between 3 prizes, a \$20 gas card, \$20 worth of Scratchers or \$20 worth of play credit into your pooling account. Soon you will be able to order Scratcher Pools too. Stay tuned. In the meantime, let's SPRING into the season with some bloomin' winners!

SCRATCHER POOLS CONTINUE TO GET MORE EXCITING!!

In January we switched to the \$20 "**\$215 Million Explosion**."

This scratcher offers over 40,000 prizes that will put cash in your pocket including EIGHT \$2.5 million dollar prizes.

In addition, because we switched from a \$30 scratcher to a \$20 scratcher, the number of tickets in each pool increased by 50% which make playing that much more exciting.! The pools grew from 5 tickets to 8 tickets, and from 10 tickets to 15 tickets.

Then at the end of February, we increased the number of tickets even more!! - from 8 to 9 and from 15 to 16, while leaving the prices of \$29 and \$49 the same!

What next you ask? - We just gave instructions to the firm that does our programming. They will be adding a screen on ezpooling.com so that you will now have another way of signing up. And, of course, once we have that screen up and operating, who knows what other exciting additions we can add to that! We are looking to launch the new screen in early April.

Q&A - players often ask if they can get into more than one pool, or if they can be on automatic renewal. The answer is Yes & Yes!

We have several players who are on our auto list to be included in a pool every week, and for some it is once every other week and for others once a month. And some get more than 1 pool.

Just let us know. We'll take care of the rest!
