

PowerPick *Player's Club* Goodtimes

Nov - Dec 2020

Bringing You the Latest News, Winners & FUN!

Letter from the Founders *Andy & Judy Amada*

Greetings!! Are we excited that we are facing the end...FINALLY...of 2020? What a year! While many have faced personal tragedies and challenges, we think there are some pretty amazing events that have taken place as well. Negativity is ever present, but many have chosen to focus on the positive and the goodwill that we have witnessed as well. We acknowledge the former, but wish to focus on the latter. Our hearts go out to everyone coping with their circumstances, but we also know the strength that comes when the chips are down. It surprises us, but it's there! So here's to better days ahead and being thankful for our friends and families that have and will continue to see us through.

Many circumstances have changed, but we've adapted. PowerPick's office hours are reduced, but you have found out that playing on EZPooling.com offers you access to pooling any time of the day or night. AND...we have switched our internet connection to a fiber network, which is much more reliable and not subject to down times. HA! So that's good news. Insomnia? No problem. Browse through our website and see what jackpot piques your interest. Okay. Maybe that's a stretch, but you get the idea. We make no claims to EZPooling making you sleepy. In fact, probably the opposite.

You may have noticed that the sky high jackpots are more rare these days. It has to do with the virus and other factors as well. We are thankful and grateful that our players are hanging in there and still dreaming of hitting the BIG one. Compared to other forms of entertainment, the cost can be rather minimal and rewards great. We appreciate your sense of adventure and that the dreams are still alive, and with pooling, more attainable. We promise to make the journey more fun and enjoy all wins along the way. Yes, the

jumbo jackpots are enticing, but in all seriousness, who wouldn't settle for a MILLION? We are going to aim high and keep that aim!

We wish you all a very HAPPY and HEALTHY holiday season. If we can't be physically present, at least technology offers us an alternative. Whether we are together or not, no one can take away the spirit, and we do wish all of you the very best part of that, that your holidays offer. And finally, a toast to the New Year and the promise of better days ahead. Cheers! Be well and be safe!

Daylight Saving Time

As you know, Arizona does not change our clocks. We have heard a few different reasons for this, but the one that really works for us is...who needs another hour of sunshine (and heat) in AZ??? Yikes and no thanks.

However, there are a few things that do affect us in AZ when the switch to "fall back" or "spring forward" happens.

For us, directly, the lottery drawings will be available one hour later. So while we can normally enter the results around 8:00 p.m., it will now be 9:00 p.m.

This also means that we will enter the next jackpot amount about an hour later as well. By the way, that next jackpot amount timing is really just a very loose estimate. Depending on how quickly States report their results to that big main computer system, affects how quickly the next jackpot amount is known. Aren't you glad you asked?
